EBS is proud to be Europe's leading independent manufacturer and distributor of air brake and vehicle control system components, and repair kits, in both its own successful premium quality brand as well as various original brands.

Since its foundation, the workforce of the company has developed great experience in the field of air braking equipment, the quality of its products has led to an increasing demand for the EBS brand, with the result that EUROPEAN BRAKING SYSTEMS has become one of the largest European airbrake manufacturers, with its brand being instantly recognisable.

The renewal and the enlargement of the EBS range has been the major objectives since the beginning of activities. Consequently, the Research & Development department is in constant touch with the market place to allow expansion of new product ranges.

OUR MISSION

To provide customers with a sustainable supply chain for quality aftermarket products through our extensive network of globally approved distributors.

QUALITY

An advanced ERP system supported by highly qualified engineers at all sites, together with tightly controlled production processes and lean manufacturing techniques sustain a warranty rate of below 0.25%.

DESIGN

Continual investment allows our Research & Development team to innovate, design and approve concepts of our rapidly expanding product portfolio.

MANUFACTURING

A state of the art manufacturing facility ensures paramount quality for the largest range of CV Brake calipers & associated braking components available to the aftermarket.

REMANUFACTURING

The longest established remanufacturing facility within the UK, supplying 5* quality parts that exceed OE standards.

ADVANTAGES

EBS holds massive product stocks at it's central warehouse.

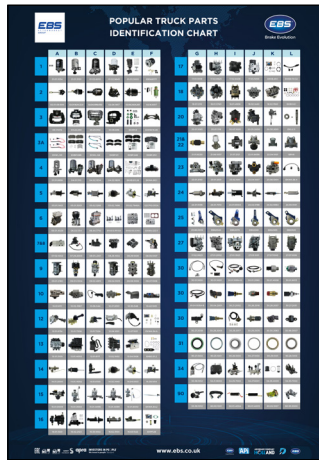

EBS prides itself on having the biggest range of Brake system components globally, allowing EBS to offer a fast, reliable & off the shelf delivery.

For Brake Pad Measuring Guide please see page 3A.2

EBS's range of brake pads are ECE R90 (Regulation 90) fully approved to the European Standard, controlling the manufacture, distribution, sale, installation and performance of all replacement brake pads and covers:

- **Brake performance pressure sensitivity**
(changes to brake performance over a range of braking application pressures).
- **Brake performance speed sensitivity**
(changes to brake performance with increased speed)
- **Brake fade behaviour**
(R13/R13H Type 1 test).
- **Brake performance in both unladen and laden weight conditions**
(R13/R13H Type 0 tests).

The EBS range of brake pads fully comply to these ECE R90 regulations and also carry the "E" (E11) approval number on each brake pad along with batch codes for traceability.

All brake pads in the EBS range are sold in axle sets of 4 pads, shrink wrapped, fully boxed and finished with a "tamper evident" seal and supplied complete with a fitting kit where detailed.

EBS also offer a full range of **Wear Lead Sensors** to compliment their Brake Pad range.

HYDROVANE COMPRESSOR

T02	
Hydrovane Compact Vane Compressor	
FITS WRIGHTBUS	
Repair Kit	---

Benefits

Lightweight and compact design - saving fuel and maximising passenger space.

Extremely quiet and vibration free operation - providing a noise-free passenger environment.

Fully integrated module - saving up to 50% of the weight of conventional designs.

Water-cooled design requires no ventilation- enabling easy installation where space is at a premium.

Variable speed inverter drive technology - Integrating with customer system.

EBS HALDEX REPAIR KITS

EBS WABCO REPAIR KITS

SLACK ADJUSTERS

Why Choose EBS Automatic Slack Adjusters:

- Comprehensive Range with ex-stock availability.
- Competitive pricing.
- All EBS Slack Adjusters will directly replace numerous other brands.
- Greater interchangeability gives the ability to stock fewer part numbers.
- Higher versatility - less limitation on the control arm installation angle.
- Cost saving - EBS offers an “Intelligent Automatic Slack Adjuster” with the control arm automatically finding the initial position, reducing set up times.

Testing:

- Durability Testing.
- Torsional Fatigue Strength Testing.
- Waterproof Testing.

Conformity:

- ISO/TS16949:2009.
- ISO/9001-2008.
- First purpose built testing facility of it's kind.
- New application patent certificates.
- Invention certificate for Automatic Adjusting Device.

High quality brass bushes.

All EBS Automatic Slack Adjusters are fitted with grease nipples.

Fully branded.

EBS Part Reference for ease of identification and traceability.

High quality strengthened cover plate and fixing screws.

Intelligent Control Arm*
- Automatically finds its initial position.

*Only on the Self Adjusting Versions

TRUCK & BUS FITMENT POSITION GUIDE

FOR TRAILER APPLICATIONS - SEE PAGES 25.30 TO 25.36

Where possible EBS has detailed to which side of the vehicle the EBS slack adjuster reference is fitted.

The information we have provided within this section should only be used as a guide. The guaranteed way of selecting the correct replacement EBS product is to identify the actual reference of the item that is being removed from the vehicle itself.

Please note - as the information is not always available this is only an indication of the applications suited for each EBS reference.

1 = Right Hand Side Of Vehicle Fitment

2 = Left Hand Side Of Vehicle Fitment

TRAILER FITMENT POSITION GUIDE

Where possible EBS has detailed to which side of the vehicle the EBS slack adjuster reference is fitted.

The information we have provided within this section should only be used as a guide.

The guaranteed way of selecting the correct replacement EBS product is to identify the actual reference of the item that is being removed from the vehicle itself.

Please note - as the information is not always available this is only an indication of the applications suited for each EBS reference.

1 = Right Hand Side Of Vehicle Fitment

2 = Left Hand Side Of Vehicle Fitment

ACCESSORIES

DIAGNOSTIC & TEST EQUIPMENT - ABS / EBS SENSORS

POTENTIOMETER TESTING DEVICE DRA01

Potentiometer box will test all KNORR Potentiometers & WABCO MAXX 22.

POTENTIOMETER TESTING DEVICE (+EXTRA CABLES) DRA01.V1

As DRA01 but this has additional cables for VOLVO applications: 1xDRA01.1 and 1xDRA01.2

TRAILERMASTER DRA02HDL

Self-contained 24 Volt Power Box with power sockets (24N, 24S, and ISO 7638), voltmeter, switches and warning lamps to test the electrical functions on trailer sockets to the Power Box.

TRAILERMASTER DRA03

24 Volt Power Box with auto light to test trailers electrical system using 24N, 24S power sockets, and test the ABS warning lamp using the ISO 7638 socket.

ISOMASTER DRA07T

Triple ISO Tester For Truck's ISO 7638 Socket, Trailer Susie and ABS Functions

SENSORMASTER DRA08

Handheld Test Equipment For ABS / EBS Sensors & Exciter Rings

EBS TEST BENCHES

Compressor Testing

EBS.BENCH.01

The ultimate Test Bench for any workshop facility. Able to isolate & detect pressure drops with each output individually controllable by the operator for the performance Testing Of:

- Air Compressors
- Brake Chambers
- Clutch Servos
- Multi Circuit Protection Valves
- Load Sensing Valves
- And Many More Pneumatic Valves.

4 x Inputs, 4 Outputs, Quick Release Couplings, 12 x High Quality 12 Bar Gauges all enclosed within a durable Powder Coated Casing that can be colour matched to any RAL colour code on request*

*Extra charge may apply

Clutch Servo Testing

Spring Brake Testing

ACCESSORIES

EBS TEST BENCHES

EBS.BENCH.02

This test bench is used mainly for testing performance of air compressor, master valve, air chamber, quick release valve and four-circuit valve, etc in brake system of various vehicles, and carrying out double-chamber or three-chamber test of master valve.

Air compressor
Master valve
Wheel cylinder
Quick release valve
Relay valve
Four-circuit valve
Differential valve

Working power: AC380V 50Hz
Motor power: 11KW
Frequency converter power: 11KW
Variable frequency speed regulating range:
No load 0-5000r/min
Load 0-2000r/min continuously adjustable
Volume of main air tank: 20L*2 or 20L*3
Auxiliary tank of air pump: 15L
External air source: 1Mpa
Air passing time: 0-99.999s
Rated pressure of oil pump:
0-1Mpa continuously adjustable
With over-load protection function, phase loss and short circuit protection function.

EBS.BENCH.03

This test bench is used mainly for testing performance of brake master cylinder, Spring brake chambers and air valves (quick release valve and relay valve, differential valve, four circuit valve, etc)

Power source: AC220V 50HZ
Input air source: 0-1.0Mpa
Tested pressure range: 0-1.0Mpa (adjustable)
Test precision grade: 31%
DC input: 12V 24V current: 5A

INDEX

WARRANTY POLICY TERMS AND CONDITIONS

This warranty Policy applies to all products supplied by EBS. Warranty claims will be tested as per the EBS procedures (a copy of these procedures can be supplied upon request).

EBS will replace or credit the acquisition cost of any unit that is determined by EBS to be defective.

The legitimacy of any warranty claim will be considered in the understanding that:

- The unit is returned within the timescales laid out in the EBS terms and conditions of sale.
- The unit is accompanied by a fully completed warranty claim form.
- The unit has been installed and maintained by qualified personnel in accordance with the vehicle manufacturer's instructions that may be unique to any given unit.

The warranty policy will not apply if:

In the judgement of EBS, the unit(s) or part(s) have been subject to damage by accident, fire, misuse, negligence or attempted repair by a third party.

Product identification labels, plates or inscriptions have been altered, removed, obliterated or damaged in any way.

Corrosion and/ or the ingestion of foreign material, which is considered detrimental to the proper function of any air, mechanical or hydraulic part, unless it can be determined to be assignable to a defect in material or manufacturing process.

This warranty policy does not cover:

- Claims where an air or hydraulic part shows ingestion of foreign material into the part. This includes liquids, solid materials and alcohol-based products.
- Claims for Air Dryers or Air Processing Units where the desiccant cartridge is found to be contaminated with oil, water or any other foreign matter.
- Claims for products where failure is caused by lack of servicing or maintenance of the product.
- Products that are not installed correctly or are incorrect for application.
- Claims resulting from the improper fitting of mating products not supplied by EBS
- Claims for electronic parts that are not accompanied by a full and complete diagnostic report.
- Claims which are not accompanied by a fully completed EBS Warranty Claim Form.

The liability under this warranty policy shall not exceed the purchase price paid. EBS is not responsible for "down time" expenses, cargo damage or any other business costs or losses resulting from failure or use of parts supplied by EBS

Should the customer request a report from any manufacturer other than EBS this must be clearly stated on the Warranty Claim Form. The customer must accept any subsequent charge levied by that manufacturer.

Any claim that has already been investigated by an EBS warranty representative cannot be subsequently submitted for a non-EBS branded manufacturer's report.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND ALL OTHER OBLIGATIONS OR LIABILITIES, INCLUDING LIABILITY FOR INCIDENTAL, SPECIAL, CONSEQUENTIAL DAMAGES OR LABOUR.

Your statutory rights are unaffected by this policy.

DISCLAIMER

- All manufacturers references and images contained within this catalogue are for the purpose of reference only and do not imply or insinuate that the part is of original manufacture.
- The EBS logo and strapline "Brake Evolution" and packaging designs are registered trademarks Of European Braking Systems Ltd, EBS retains the power of disposal, such as copying, reproducing and transferring or the use of without prior written authorisation from European Braking Systems. All those responsible for reproducing the EBS Logo in print, broadcast or electronic form must do so in accordance with the EBS guidelines and brand standards set out in the EBS Brand Guidelines and EBS Packaging Guidelines available on request. Any incorrect reproduction or unauthorised use of the EBS registered trademark / logos will be pursued vigorously.
- Whilst EBS does supply genuine products the purpose of this catalogue is to provide a guide to the customer enabling them to find the correct part required for their application. EBS cannot accept any liability nor offer any guarantee regarding data accuracy,
- Whilst every attempt has been made to ensure the accuracy of the information contained within, there may be mistakes and it is advised that customers telephone our sales department prior to ordering to confirm the suitability of the parts ordered.
- EBS will not and can not accept responsibility for incorrect orders if the customer fails to obtain verification prior to ordering.
- Subject to alteration without notice.
- This document, in part or in whole, may not be copied, transmitted or reproduced in any form without prior written authorisation from European Braking Systems.
